

DEMONSTRATION GARDEN

- PLANT LIST -

waterSmart PERIMETER PLANTS

Plants have been selected to meet the specific needs and context of the site. As shown on the associated Section/Elevation and Plan View drawings, the perimeter plantings reside in full sun conditions, and the groupings reduce the heat island effect of the adjacent hardscape, provide a much needed buffer between the garden and drives, and create a sense of enclosure and intimacy for visitors.

TREES:

Yaupon Holly, *Ilex vomitoria*
(native, evergreen, red berries, wildlife value)

Sweetbay Magnolia, *Magnolia virginiana*
(native, evergreen, fragrant flowers, wildlife value)

Sabal Palm, *Sabal palmetto*
(native)

SHRUBS:

Seamyleafed, *Baccharis halimifolia*
(native, evergreen, wet or dry soils, white flowers)

Beautyberry, *Callicarpa Americana*
(native, deciduous, pink flowers, fuchsia berries, wildlife value)

Waxmyrtle, *Myrica cerifera*
(native, evergreen, wildlife value)

Saw Palmetto, *Serenoa repens*
(native, evergreen)

PERENNIALS:

Purple Coneflower, *Echinacea purpurea*
(native, magenta flowers, wildlife value, butterfly attractor)

Muhly Grass, *Muhlenbergia capillaris*
(native, mauve plumes)

Passionflower, *Passiflora incarnate*
(native, unique flower)

Black-eyed Susan, *Rudbeckia fulgida*
(native, yellow flowers, wildlife value, butterfly attractor)

waterSmart HABITATS

Four (4) “waterSmart Habitats” have been established and associated plants have been grouped to assist visitors in understanding how to create landscapes for context specific areas around the home.

WATERSMART HABITAT #1 – “Full Sun Garden”

Features plants that flourish in full sun and drought conditions

Winged Sumac, *Rhus copallina*
(native, deciduous, red fall color, wildlife value)

Yucca, *Yucca filamentosa*
(native, evergreen, cream flowers)

Rosemary, *Rosmarinus officinalis*
(non-native, edible herb, blue flowers)

Coreopsis, *Coreopsis sp.*
(native, perennial, yellow flowers, wildlife value, butterfly attractor)

Broomsedge, *Andropogon virginicus*
(native)

WATERSMART HABITAT #2 – “Shade Garden”

Showcases plants that prosper in dry, full shade locations

Beautyberry, *Callicarpa Americana*
(native, deciduous, pink flowers, fuschia berries, wildlife value)

Wood Fern, *Dryopteris arguta*
(native, perennial)

Silver Dragon Grass, *Liriope spicata* 'Silver Dragon'
(non-native, evergreen)

WATERSMART HABITAT #3 – “RainGarden”

Includes plants that thrive in moist to wet soil conditions

Waxmyrtle, *Myrica cerifera*
(native, evergreen, wildlife value)

Fetterbush, *Lyonia lucida*
(native, pink flowers, wildlife value)

Cattail, *Typha angustifolia*
(native)

Fakahatchee Grass, *Tripsacum dactyloides*
(native)

Blue Flag Iris, *Iris versicolor*
(native, blue flower)

WATERSMART HABITAT #4 – “Full Sun Garden”

Highlights native plants that are edible/medicinal

Sassafras, *Sassafras albidum*
(native, deciduous, red fall color, wildlife value)

Blueberry, *Vaccinium sp.*
(native, deciduous, red fall color, wildlife value, edible berries)

Muscadine Grape, *Vitis rotundifolia*
(native, deciduous, wildlife value, edible berries)
